

Join Our BMC2 Patient Advisory Council*

BMC2 is a network of doctors and other professionals who are experts in the health of blood vessels and the heart. The goal of BMC2 is to find ways to improve care and results for patients. As a member of the Patient Advisory Council, you will:

Help doctors create tools to increase patient care and safety.

Join other patient advisors to attend BMC2 and Patient Advisory Council Zoom meetings about 4 times per year.

Share your experience as a patient so those in health care can learn and improve their work.

Patient Advisors have recently:

- Shared ideas for a tool that will help doctors and patients work together to make decisions about the best plan for care.
- Been involved in creating a toolkit to assist health care providers with resources for getting more patients to complete cardiac rehab through referrals and participation.

“BMC2 is trying to bridge gaps between the different institutions and bring out best practices, bringing the best care to all facilities in Michigan. I figure that wherever I can share my story, make a difference, and help somebody, I should.”
- Crystal, BMC2 Patient Advisory Council member
