Check the box for the council you would like more information about or would like to join.

**Percutaneous coronary intervention (PCI):** Procedures that treat blockages in the arteries that supply blood to the heart, including heart stenting.

**Vascular:** Conditions related to blood vessels, including:

- Peripheral Vascular Disease - Issues with blood flow in the arms, legs, and other parts of the body.
- Aneurysms - Weakened areas in blood vessels that can bulge or even burst.
- Carotid Arteries - The main arteries that carry blood to your brain and head.
